

Blackland Farm risk assessment

Activity being assessed.	Crate challenge
Assessor.	Bryn Beach
Date.	4/1/2010
What is the hazard?	Falling to ground from a low level
Who is at risk?	Customer on tower
How likely is an accident? 1 unlikely 2 possible 3 quite possible 4 likely 5 very likely	3
If an accident occurs, what is the consequence? 1 no injury 2 slight injury 3 injury over a three day duration 4 death or serious injury 5 multiple death	2
Consequence x likelihood score.	6
Current control measures.	<p>Instructor to ensure start of tower is built correctly and that slack is taken out of system.</p> <p>Instructor to be aware that the first few feet of the tower being built represent the highest risk of falling to the ground.</p> <p>Adequate supervision of belay team and those helping to build tower</p>
Are these adequate?	Yes
What other measures are necessary?	None
What monitoring is needed?	Sessions checked for safety. Monitor near miss register.
Any other information.	Rope stretch will mean this hazard can never be eliminated completely. Review Jan 2011
Signature of assessor.	Bryn Beach
