

## Blackland Farm risk assessment

Activity being assessed.	Crate challenge
Assessor	Bryn Beach
Date	4/1/2010
What is the hazard?	Crates falling down and hitting those on ground
Who is at risk?	Participants and instructor
How likely is an accident? 1 unlikely 2 possible 3 quite possible 4 likely 5 very likely	2
If an accident occurs, what is the consequence? 1 no injury 2 slight injury 3 injury over a three day duration 4 death or serious injury 5 multiple death	2
Consequence x likelihood score.	4
Current control measures.	<p>Ensure towers are built with short axis of crate at right angles to belay teams, this means crates fall away from belay team.</p> <p>Those not directly taking part in the activity are to be out of the way e.g. sitting on bench</p> <p>Limit the number of helpers building the tower to two people in total</p>
Are these adequate?	Yes
What other measures are necessary?	
What monitoring is needed?	Sessions checked for safety. Monitor near miss register.
Any other information.	To Be Reviewed Jan 2011
Signature of assessor.	Bryn Beach
